SUMMARY

I am a skilled and motivated Frontend React Developer with a certification in Full Stack Web Development. With around two years of internship + full time experience, I have a strong foundation in frontend development and a passion for creating intuitive and visually appealing web applications. I excel in translating design concepts into fully functional and optimized web interfaces, ensuring exceptional user experiences. Proficient in state management libraries like Redux and experienced in integrating RESTful APIs. With a strong technical acumen, adaptability, and collaborative nature, I am confident in my ability to contribute to the success of any development team. I am eager to take on new challenges and contribute to the growth of your organization as a Frontend ReactJS / NextJS Developer.

SKILLS

- Front-End Programming: HTML5, CSS3, SCSS, SASS, BOOTSTRAP5, TailwindCSS, Semantic HTML, ARIA & roles
- CSS Flexbox, Grid, Material UI, Chakra UI, AntD, TailwindCSS
- Scripting Languages: Javascript
- Javascript Library - ReactJS(Redux-Saga), Next JS
- Web Components Development
- UI Updates
- Version Control Systems: Git, Github
- Agile Software Development
- Atlassian-Bitbucket
- Agile Scrum
- Microsoft Office And All Google Products
- Design Software: Figma, Photoshop

EXPERIENCE

Front End Developer / Tech-Soft - Jaipur, India

07/2023 - Current

- Developing and implementing user-friendly, pixel-perfect web interfaces using React.js and other related technologies.
- Collaborating with designers and backend developers to translate design concepts into functional frontend components.
- Writing clean, efficient, and maintainable code using best practices and established coding standards.
- Integrating RESTful APIs and backend services to enable seamless data exchange and communication between frontend and backend systems.
- Implementing responsive design principles to ensure consistent user experiences across different devices and screen sizes.
- Staying updated with the latest frontend development trends and technologies, and actively contributing to the team's technical knowledge base.
- Creating successful websites that meet requirements for objectives such as load speed and design.

Front End Developer / Mentorpal.ai - Mentorpal.aiBangalore

05/2022 - 06/2023

- Created successful websites that met requirements for objectives such as load speed and design.
- Implemented responsive and interactive components to enhance the user experience.
- Worked with UI libraries and frameworks like Ant Design and Bootstrap to streamline the development process.
- Customized and integrated components from these libraries to match the design requirements of the application.
- Ensured that web applications were compatible with various browsers and devices.
- Implemented responsive design principles to optimize the user experience across different screen sizes and resolutions.
- Wrote clean, maintainable, and optimized code for frontend components.
- Conducted code reviews, debugged, and addressed issues to improve the overall quality and performance of the application.
